Overview

The Color Atlas of Burn Reconstructive Surgery is a comprehensive visual guide to the latest techniques and approaches for post-burn reconstruction. This atlas is an essential resource for surgeons of all levels, from residents to experienced practitioners. With over 1,000 high-quality images and detailed descriptions, this book provides a step-by-step guide to managing

all aspects of burn reconstruction, including wound care, scar revision, flap surgery, skin grafting, and tissue engineering.

Key Features

- **Over 1,000 high-quality images and detailed descriptions** provide a visual roadmap for surgeons to navigate the challenges of post-burn reconstruction.
- **Covers all aspects of burn reconstruction**, including wound care, scar revision, flap surgery, skin grafting, and tissue engineering.
- **Written by a team of leading experts** in burn reconstructive surgery.
- **Ideal for surgeons of all levels**, from residents to experienced practitioners.

Table of Contents

1. **Part 1: Principles of Burn Reconstruction**
2. **Part 2: Wound Management**
3. **Part 3: Scar Revision**
4. **Part 4: Flap Surgery**
5. **Part 5: Skin Grafting**
6. **Part 6: Tissue Engineering**

renowned expert in burn reconstructive surgery and has published over 200 peer-reviewed articles on the topic.

Michael J. Yost, MD, FACS, is Professor and Chief of the Division of Plastic Surgery at the University of Pittsburgh. He is a leading expert in burn reconstructive surgery and has published over 100 peer-reviewed articles on the topic.

M. Grant Harrell, PhD, is Professor and Director of the Wound Healing and Tissue Repair Laboratory at the University of California, San Francisco. He is a leading expert in tissue engineering and has published over 150 peer-reviewed articles on the topic.

Marc G. Jeschke, MD, PhD, FACS, is Professor and Director of the Center for Burn and Wound Research at the University of Texas Southwestern Medical Center. He is a leading expert in burn care and has published over 250 peer-reviewed articles on the topic.

Reviews

"This atlas is an essential resource for surgeons of all levels who care for burn patients. The high-quality images and detailed descriptions provide a step-by-step guide to managing all aspects of burn reconstruction." - **John Abzug, MD, FACS**, Professor and Chair of the Department of Plastic Surgery at the University of Pennsylvania

"This atlas is a valuable addition to the literature on burn reconstructive surgery. It provides a comprehensive overview of the latest techniques and approaches, and is an essential resource for surgeons of all levels." -

Brynn Busko, MD, Associate Professor of Plastic Surgery at the Mayo Clinic
