**Description:**

This book explores the use of critical autoethnography as a research method to promote intercultural learning. It brings together the work of emerging scholars who use autoethnography to critically examine their own experiences and identities in intercultural contexts. The book offers a unique perspective on the challenges and opportunities of intercultural learning and provides insights into the ways in which autoethnography can be used to promote dialogue, understanding, and change.

**Target Audience:**

- Students and scholars in the fields of education, sociology, anthropology, and cultural studies
- Researchers interested in the use of autoethnography as a research method
- Educators and practitioners working in the field of intercultural education
- Anyone interested in the challenges and opportunities of intercultural learning
