Overview

When Breath Becomes Air is a memoir by Paul Kalanithi, a neurosurgeon who was diagnosed with stage IV lung cancer at the age of 36. The book chronicles Kalanithi's journey through his illness, from the initial diagnosis to his final days. Along the way, he reflects on his life, his work, and the meaning of human existence.

Kalanithi was a brilliant surgeon and a gifted writer. His memoir is both a deeply personal account of his own experience with cancer and a broader meditation on the human condition. Kalanithi writes with honesty and candor about his fears, his hopes, and his struggles. He explores the complexities of grief, loss, and the search for meaning in the face of death.
